

How to Update Harmony Sample Book

1. Find out which pages to be renewed

- (1). program overview – all the 6 pages
- (2). P2 for inner page – to replace the 2nd inner page in current sample book

- (3). P3 for inner page – to replace the 3rd inner page in current sample book

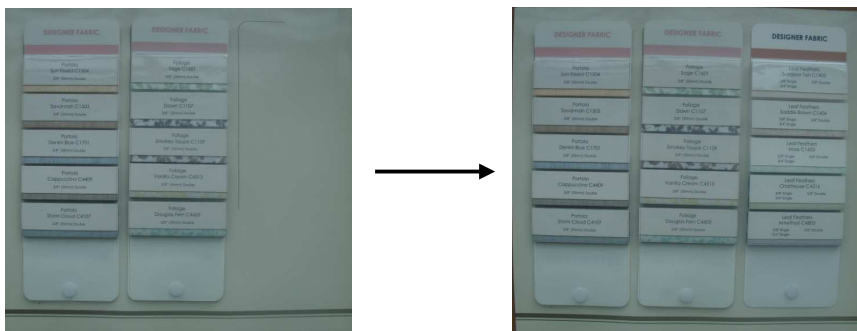

- (4). Extended inner page – to replace the 7th inner page in current sample book (with "Semi-opaque" tab)

- (5). Back of the 10th inner page in current sample book

- (6). Back of the 12th inner page in current sample book

(7). The last inner page in current sample book

2. How to Paste Color Strips onto Inner Page

(1). Find out the Male Velcro in the package.

(2). Paste two pcs of male Velcro onto the female Velcro on the back of color strip.

Note: Female Velcros have been pre-pasted on the back of the strip.

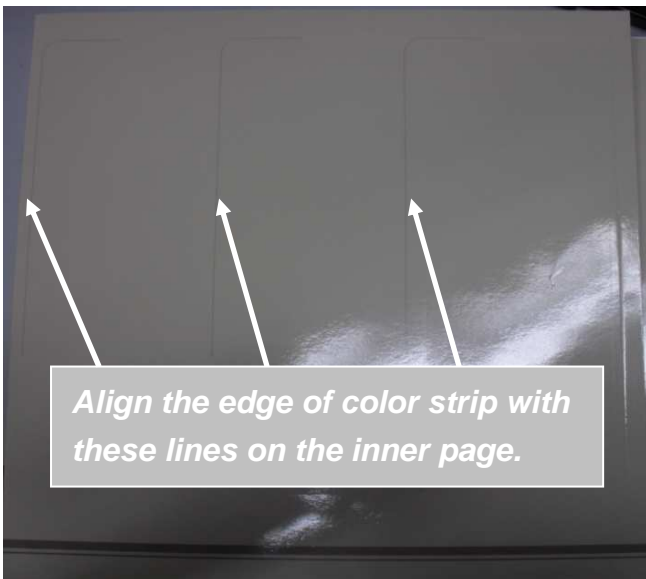

Female Velcro were pre-pasted.

Put on the Male Velcro to match with Female Velcro.

(3). Paste the strips onto the inner page

Align the edge of color strip with these lines on the inner page.

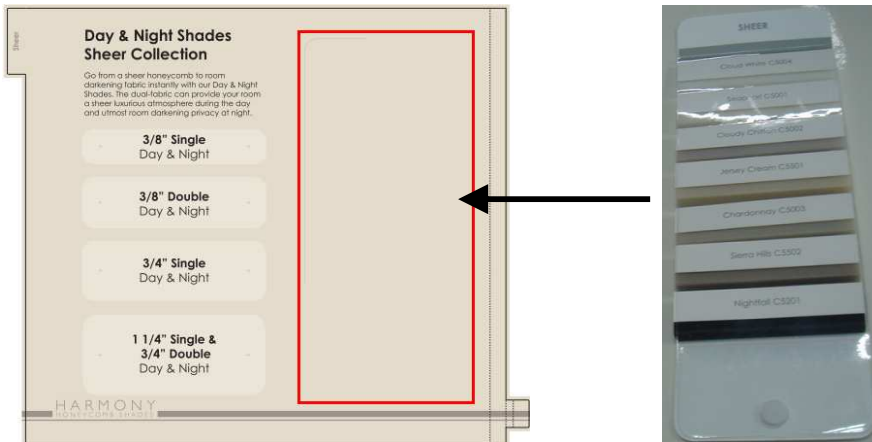

And then paste the strips onto the inner page.

3. Location for the Strips

(1). Sheer color strip

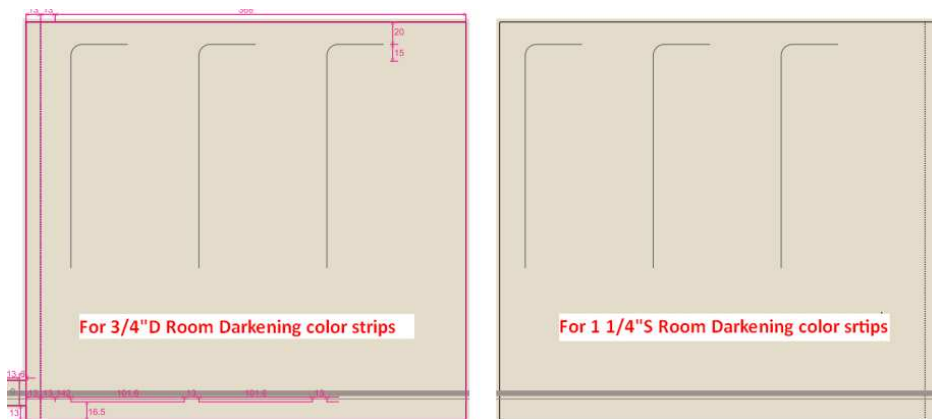

Location: With square mark below on the replaced P3 inner page.

Please remove the "SHEER" strip from P3 of the sample book at your hand. And then please paste it to the new P3.

(2). Room Darkening color strips for 3/4" Double cell & 1 1/4" Single Cell

Location: on the last inner page in current sample book at your hand.

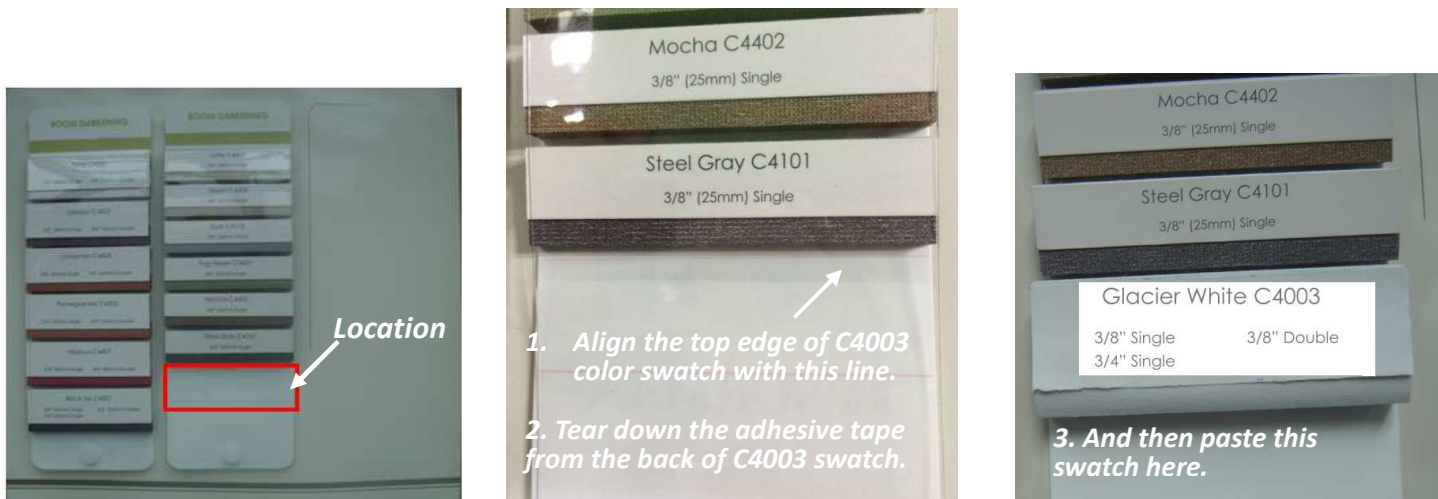

Strip Sequence:

Left → Right		
3/4"D Room Darkening:		
C4001	C4103	C4401
C4506	C4104	C4201
C4507	C4602	
1 1/4"S Room Darkening:		
C4001	C4105	C4705
C4002	C4102	C4704
C4507	C4201	

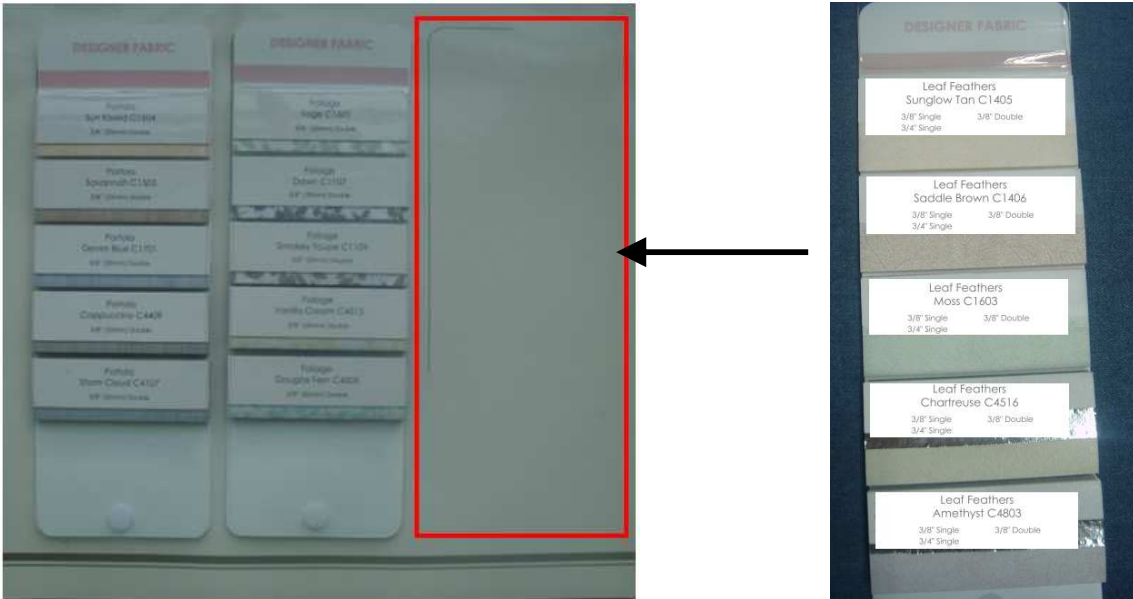

(3). C4003 Glacier White Color Swatch in 3/8" Double Cell

Location: With square mark below on current 3/8"S R/D color strip at the back of the 10th inner page in current sample book at your hand.

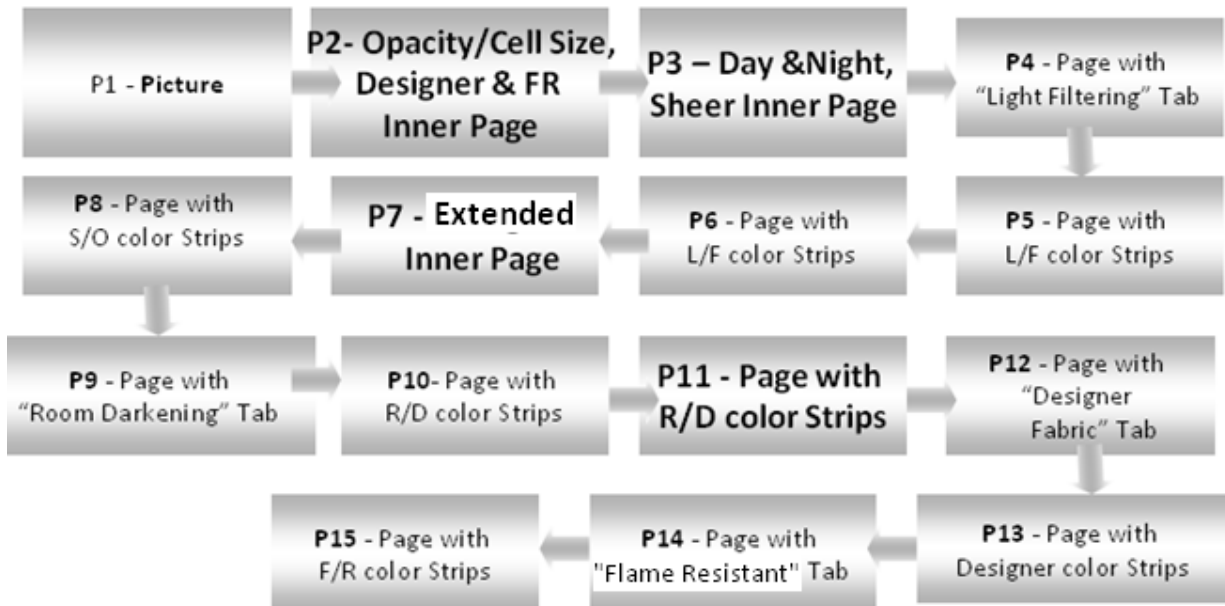

(4). Leaf Feathers Designer Fabric Color Strip in 3/8" Double Cell

Location: With square mark below at the back of the 12th inner page in current sample book at your hand.

4. Page sequence for retrofit sample book

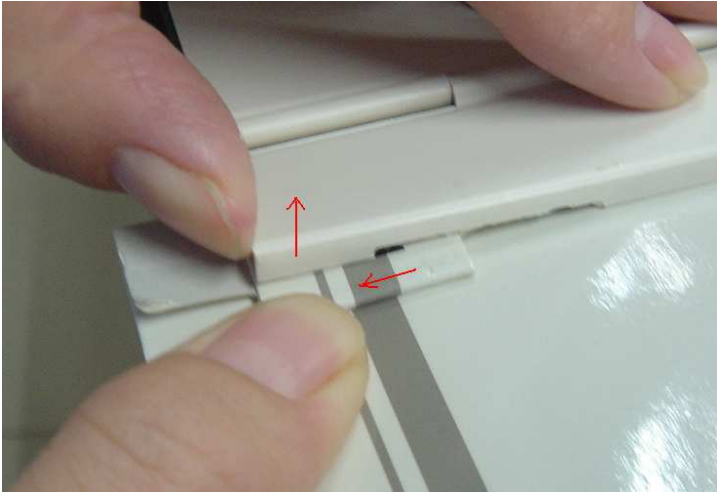

5. Reassemble the Sample Book with Above Page Sequence

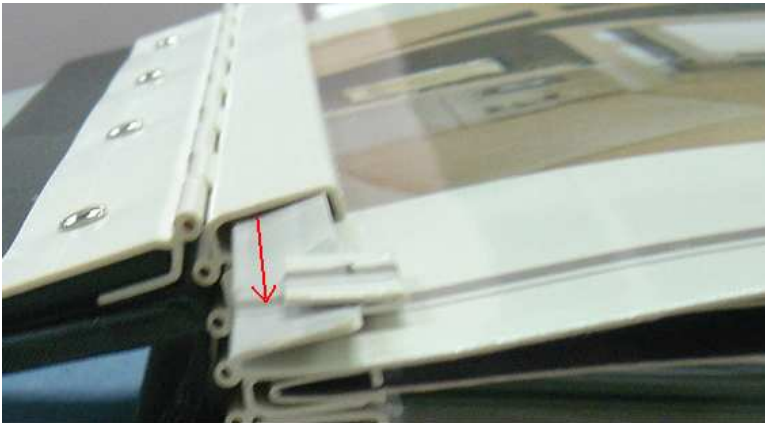

(1). Find the notch on the clip of the inner page.

(2). Open the clip upward a little with one hand and remove the inner page outward from the clip notch with the other hand.

(3). Pull out this page along with the clip.

(4). Then put back the new inner pages into the page clip one by one following the page sequence in Point 4.

Congratulations! Your sample book is a complete retrofit now.
