6. ==Do not Copy Remotes if you DO NOT want the ALL BUTTON (0) on both remotes to move all shades.==

SPECIAL NOTE: SHADES CAN BE CONTROLLED BY MULTIPLE REMOTES:

V4 2016

UNLOCKING THE 15 CHANNEL REMOTE:

In rare cases you may receive a 15 Channel remote that will not display all 15 channels. If you receive one of these Locked Remotes, use the directions below to "Unlock the Remote" and restore all 15 channels.
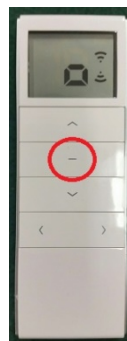

Press and Hold the Left arrow key (P1+) and the Right arrow key (P1-) at the same time until a C appears in the display screen

Continue to press the Left and Right arrow keys until the display changes to 15. Release the Left and Right arrow keys

Press the Stop button once and a zero will appear in the display and then change to 15. The remote is now unlocked and you may proceed with programming.
